The **Information Awareness Office (IAO)** was established in January, 2002 as a branch of DARPA, and will supply federal officials with 'instant' analysis on what is being written on email and said on phones all over the US. The concept is called '**Total Information Awareness**'. The program uses **Echelon** technology and a sister organization called the **Information Exploitation Office**. It has officially adopted the Illuminati seal, the all-seeing eye atop a truncated pyramid. Another project is the **Human Identification at a Distance (HumanID)** program. According to the DARPA site, the Information Awareness Office has a scope of intelligence which includes:
